

WASTEE

waste sorting modular system

KOBRA WASTEE WASTE SORTING MODULAR SYSTEM

designed by
CARLO COLOMBO ARCHITECT

The elegant, minimalist and modern design of KOBRA WASTEE allows its placement in any location: ideal to create ecological islands in the office, in contemporary commercial areas and public spaces. Perfect for properly disposing, recycling and organizing separate waste collection.

KOBRA WASTEE is designed with a strong commitment to sustainability.
We use recycled materials to reduce waste and ensure complete recyclability, both for the product and its packaging.

 **Recycled materials:** up to 20% of the product is made from recycled materials, reducing the consumption of resources

 **100% recyclable:** every component is fully recyclable, ensuring minimal environmental impact

 **Eco-friendly packaging:** the packaging is also entirely recyclable, making it an even greener choice.

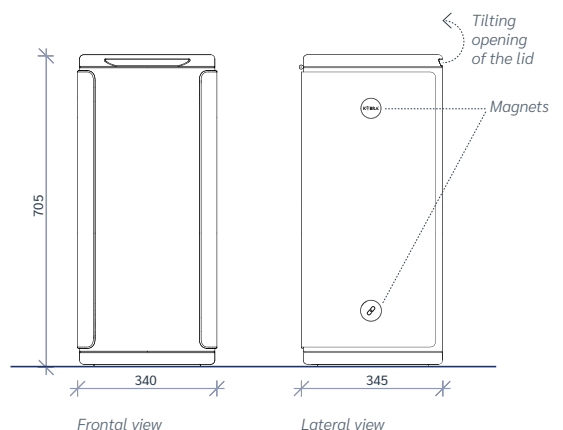

- **Available in different models,** graphics and colors help to quickly identify how to separate the different types of waste according to international standards.
- **Space-saving modules, always well aligned:** two round areas located on each side include a magnet for easy joining of more bins to each other.
- **Stable container:** made of particular robust materials, 100% recyclable.
- **Easy to clean:** attractive glossy ivory-white finish of the lids and outer shell.
- **Quick and easy system to change the full bag:** tilting opening of the lid.
- **Capacity:** 60 liters.
- **Waste bag made with recycled materials:** 100% recyclable.
- **Dimensions (LxDxH):** cm 34 x 34,5 x 70,5.
- **Weight:** 6,7 Kg.

DIMENSIONS

The clear and bright KOBRA WASTEE bins have lids with colored profiles designed to make the recycling experience pleasant and enjoyable.

More KOBRA WASTEE bins combined together can be considered as furnishing elements, to be shown and not hidden, they stand out without invading the scene.
