

- **Document and all media data shredders**
(optical, magnetic and electronic)
- **Ecological recycling systems**

Leader in the production of paper and all data media shredders
(optical, magnetic, and electronic) distributed in over 90 countries under
the KOBRA brand for over 40 years.

Quality and professionalism guaranteed Made in Italy.

KOBRA shredder wide range meets any shredding need of all data carrier with maximum security

Documents

Micro-films and foils

Optical media (CD/DVD/Blu-ray discs)

Magnetic data holders
(credit cards, floppy discs, ID cards...)

Electronic data holders
(SSD Solid State Drives, HDD Hard Disk Drives, USB, memory sticks, pc boards, cell phones, tablets...)

KOBRA is a market leader in innovative technological solutions

Maximum strength and wear resistance guaranteed by steel gears and chain drive.

This technology, patented by Elcoman in 1995, is still the heart of the KOBRA shredder range.

KOBRA shredders are equipped with **continuous duty motors operating 24 hours a day** without ON/OFF duty cycle, allowing uninterrupted operation.

We stand out for our commitment to developing technologies focused on sustainability

ENERGY SMART SYSTEM

HYBRID TECHNOLOGY

CARDBOARD RECYCLING

WASTE SORTING SYSTEM

ENERGY SMART SYSTEM

for power saving: the energy consumption is managed by a dedicated software that will activate the power saving standby mode once shredding is complete.

Separation of paper and plastic:

some models allow automatic separation of paper and plastic shreds into two different containers.

We stand out for our commitment to developing technologies focused on sustainability

KOBRA Flexpack and KOBRA Flexpack Desktop transform used cardboard into high-quality flexible material to protect objects to be packed and fill empty spaces in boxes.

Easy to use: just insert the cardboard and the machine automatically cuts and perforate it.

KOBRA WASTEE Waste Sorting Modular System *designed by Carlo Colombo Architect*

The elegant, minimalist and modern design of KOBRA WASTEE allows its placement in any location: ideal to create ecological islands in the office, in contemporary commercial areas and public spaces.

Two round areas located on each side include a magnet for easy joining of more bins to each other.

WASTEE

waste sorting modular system

WASTEE bins can be considered as furnishing elements (to be shown and not hidden)

KOBRA MEANS AUTHORITY IN DATA HIGH SECURITY

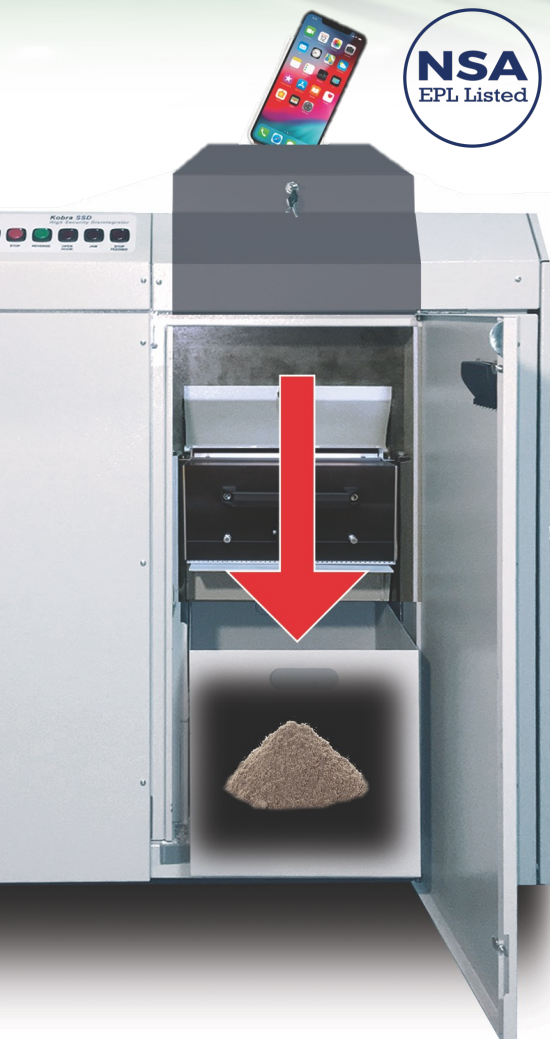

Military bodies, Government offices, intelligence services and government contractors choose KOBRA products.

For all applications requiring the highest level of security for the destruction of documents, data on optical media and on the latest magnetic and electronic media also used for Artificial Intelligence applications.

High Security shredders are approved and meet the security criteria required by **ASIO** (Australian Security Intelligence Organization), in addition many models are approved by the US agency **NSA** (National Security Agency).

ELECTRONIC MEDIA SHREDDERS

Kobra SSD - Solid State Drive High Security disintegrator (NSA approved)

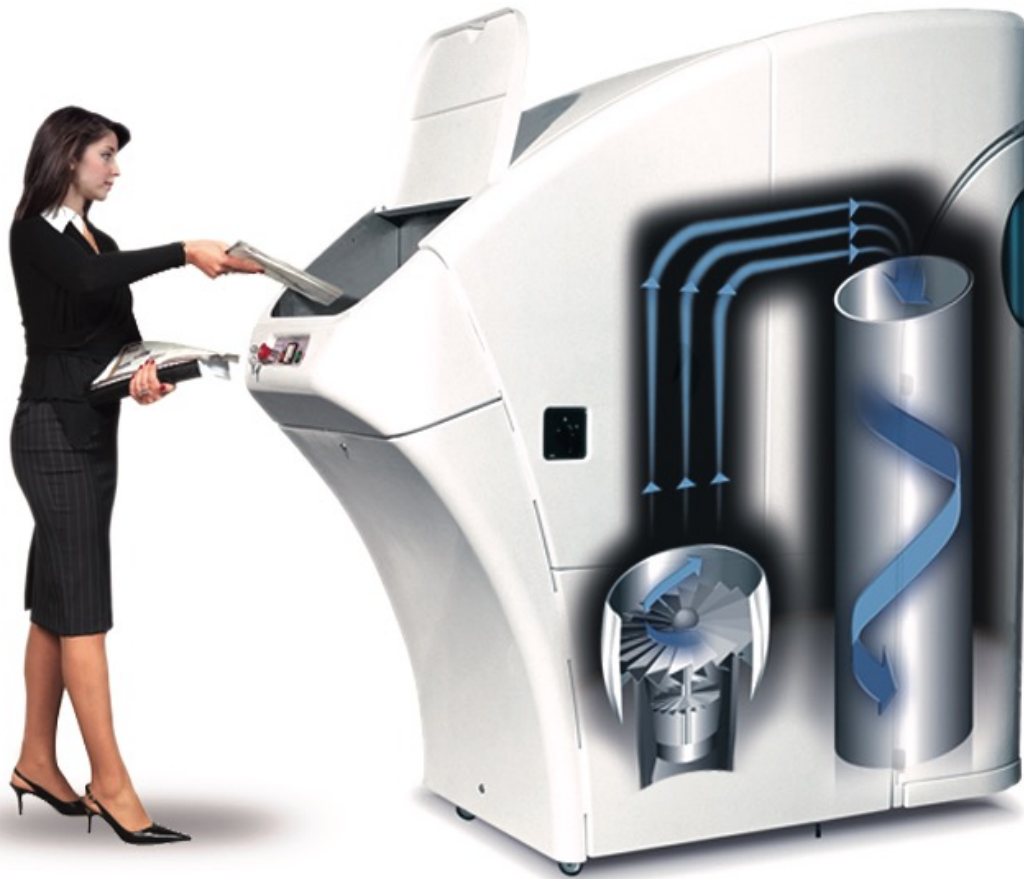

High security shredder capable of pulverizing: solid state drives, smartphones, tablets, electronic cards, USB memory devices, flash memory and IC chips for unbeatable security.

Kobra HDD Hard Disk Drive shredder

This shredder can shred up to 280 hard drive per hour, with a low noise level, making data recovery impossible.

INDUSTRIAL SHREDDERS

KOBRA CYCLONE **multi-purpose heavy duty shredder**

Blades rotating at a very high speed combined with the power of a turbine provide the unit with an airflow allowing the shredding of up to 500 sheets of paper at a time, as well as the shredding of many other types of materials into 5 different available particle sizes (*high security included*).

KOBRA: QUALITY AND RELIABILITY

KOBRA products comply with the most recognized and high government standards for high security.

- The high quality you expect from Made in Italy makes each item unique and at the leading edge of the market.
- Each and every part is made with painstaking attention to detail using the most reliable and durable materials.
- We deliver uncomparable durability and highly innovative technological systems.
