TOUCH SCREEN PANEL

Just touch the controls to activate the machine functions.

SUPER POTENTIAL POWER SYSTEM

Heavy duty chain drive with steel gears which offer reliability and resistance to wear

INTEGRATED AUTOMATIC OILER

The Automatic Oiler eliminates the need to manually lubricate the unit. Not only does this protect the blades with anti-corrosive agents, but ensures maximum reliability, efficiency and capacity. Cross-cut shredders benefit most from this practical option.

METAL DETECTION SYSTEM SHRED GUARD

The Shred Guard System stops the machine when large metal objects are accidentally inserted. An illuminated optical indicator warns the operator to remove these objects in order to protect the knives.
