MAIN FEATURES

Cross-cut shredder suitable to shred "Classified" and "Top Secret" documents. High precision design of carbon hardened steel cutting knives allows high shred loads with low power consumption. Motor thermal protection: 24 hour continuous duty motor without overheating.

Delivered with a built-in integrated Automatic Oiling System that eliminates the need to manually lubricate the unit and ensures maximum reliability, efficiency and capacity. KOBRA 240.1 HS can shred a sheet of paper in about 10.000 microchips which become absolutely unreadable even if special electronic optical microscopes are used. Equipped with ENERGY SMART System for power saving stand-by mode and environmental protection.

- **Super Potential Power Unit:** heavy duty chain drive system with steel gears
- **Continuous duty shredding:** 24 hour continuous duty motor without overheating and duty cycles
- **Carbon hardened steel cutting knives**
- **Energy Smart System:** the machine goes into power saving stand-by mode after just 8 seconds of non-operation
- **Automatic Oiling System:** automatically lubricates the cutting knives during the shredding operation
- **Start & Stop:** automatic start and stop through electronic eyes with stand-by function
- **Safety Stop:** automatically stops at open door and/or full waste bin
- **Automatic Reverse System** in case of jamming
- **10.5 gallon cabinet** mounted on casters

Motor thermal protection. Continuous duty motor, no overheating and no duty cycles.

Automatically lubricates the cutting knives during the shredding operation, ensuring maximum reliability, efficiency and capacity.

Power management system with illuminated indicators for power saving in stand-by mode. Easy to operate On/Off/Reverse switch, with LED signal for bag full and/or open door.

Heavy duty chain drive with steel gears which offer reliability and resistance to wear.
