MAIN FEATURES

Kobra Flexpack is the ideal ecological and economical solution when it comes to packaging material. Kobra Flexpack simultaneously cuts and perforates cardboard to create high-quality packaging material. This will help to save costs, time and to protect the environment.

- **Kobra Flexpack transforms used cardboard boxes into filling material** either as a packing and cushioning material or as a filling material for safe deliveries of any product.
- **The cushioning volume of the output is adjustable** through a specifically designed tension system.
- Kobra Flexpack has an **adjustable working width with scale** enabling the user to optimize the measure of the packaging material according to the sizes of the boxes. Moreover, it has a large and convenient carton support table ensuring easy operation.
- Kobra Flexpack carries the latest **Touch Screen Technology**: it utilizes a remarkable touch screen keypad where functions are activated by simply touching the panel. Flexpack also shows a **LED load meter** indicating the work load on the machine.
- It comes with an **hour meter** to help keep records of scheduled cleaning, maintenance and usage time intervals. This standard feature also helps with filter replacement schedule on machines equipped with the **optional DCS-500 system**.
- The unit produces very low noise level on a **24-hour continuous duty operation** and carries a very high-efficiency motor that can save considerable electrical energy cost. It plugs into a standard 115 Volt outlet.
- **Super Potential Power Unit**: chain drive system with steel gears.
- It stands out for its sturdy and robust Kobra power unit and for its Kobra **high carbon grade steel cutting knives**.
- Kobra Flexpack is equipped with an **emergency off switch** for user safety.
- It is a stand-alone / free standing unit, easy to move, equipped with **castors and parking brake**.
