

KOBRA COMPACTOR C-500

PAPER COMPACTOR
OPTION ON KOBRA CYCLONE

Model: COMPACTOR C-500
Article Code: 99.101
EAN Code: 8 026064 991018

Compactable material:	Paper
Compacting force:	40 KN
Voltage:	3 phase 208 volts / 50 amps per phase. Supply line must hold 208 volts under load up to 50 amps.
Power:	3 HP
Dimensions (WxDxH):	43 x 23 x 58 inch
Weight:	485 lbs

Packaging: 1 unit placed in a box on 1 pallet

**Capacity varies based on supply power, weight, quality and grain of paper, operating temperature.*

MAIN FEATURES

Designed to work with Cyclone when paper is being shredded: Kobra Compactor C-500 compresses and reduce the volume of the shredded paper by 4-5 times to minimize the space required for disposal.

Compacting paper increases security of one level (ISO/IEC 21964).

- Easy to install and to operate
- Makes recycling of shredded paper easy
- Compacted shredded paper can be collected into plastic waste bag or in any type of container
- Reduce dust, compacting it together with shredded paper
- Does not require maintenance
- It works with any Cyclone security level screen, including high security level 006
- Powerful high efficiency motor: maximum electrical saving per year
- Mounted on casters

CONSUMABLE MATERIALS:

- **Regular bags:** 100 gallons, 50 pcs/box (art. code CB-93)
- **Sleeve junction Cyclone-Compactor,** 50 pcs/box (art. code 51.230).

 **INNOVATIVE SHREDDING SYSTEM
BASED ON A TURBINE COMBINED WITH
HIGH SPEED ROTATING BLADES.**

 **SPECIAL ACCESSORY: COMPACTOR
C-500 REDUCES BY 4-5 TIMES THE
VOLUME OF THE SHREDDED PAPER.**
