## MAIN FEATURES

Cross-cut shredder with a transparent opening lid and automatic suspension closing: shredding capacity of up to 14 sheets at a time by just inserting them into the throat on the front. Shreds CDs, DVDs and credit cards by inserting them into the second throat. It can also shred crumpled paper using the revolutionary "Throw and Shred" System with its special automatic feeder with rotating flap.

Two separate sets of cutting blades, one for shredding paper and the second for CDs/DVDs and credit cards, allow to feed the shreds into two separated integrated removable bins which need no bags and keep shredded paper and plastic separate. Low noise motor is featuring 24 hour continuous duty operations without overheating or duty cycles. Carbon hardened cutting knives unaffected by staples and clips. Equipped with the Energy Smart System with efficient optically illuminated indicator for power saving stand-by mode and environmental protection.
