MADE IN ITALY

KOBRA[®] MEANS AUTHORITY IN DATA SECURITY

All Kobra shredders comply with the most recognized high security government standards

KOBRA shredders are trusted by the CIA, NSA, ASIO, the UK Ministry of Defence, and Japan's Ministry of Telecommunication.

KOBRA HS shredders at security level P-6 **meet NATO criteria**. The KOBRA HS-6 and KOBRA Cyclone, at security level P-7, are **NSA/CSS 02-01 approved** and **comply with UK NPSA standards**. All models are certified by **ASIO** T4 Protective Security in Australia.

Their ultra-fine 0.8x5 mm cut reduces a single sheet to 16,000 micro-particles, completely illegible even under an electronic microscope.

The Kobra SSD High Security Disintegrator, also NSA-approved, destroys solid state drives, smartphones, tablets, USB devices, memory sticks, circuit boards, credit cards, and CDs/DVDs into sand-like dust.

KOBRA: Unmatched security. Absolute data destruction.

TOUCH SCREEN LINE

The range of KOBRA TS shredders with Touch-screen Technology is the most technologically advanced on the market today. Functions are activated by simply touching the required icon on the Touch-screen panel.

EPC - ELECTRONIC POWER CONTROL SYSTEM

By means of a series of illuminated optical indicators, the operator can **control the shredding load**, avoid jams and optimize shredding (KOBRA 270, 310, 410 TS series).

ILLUMINATED OPTICAL INDICATORS

LED on the Touch Screen panel **show the current status of the machine** or Energy Smart® lights up when the machine is into power saving stand-by mode. There is also a light to warn the operator when the cutting knives need to be oiled. In shredders with an automatic oiler, a light comes on when the oil container is empty.

TOUCH SCREEN TECHNOLOGY

All controls are activated by **simply touching the panel**. Keep your finger on the "Forward" control for 5 seconds and the machine will operate for 30 seconds when transparent material needs to be shredded.

TOUCH SCREEN LINE TECHNOLOGY

MOTION SENSOR (OPTION) AND ENERGY SMART SYSTEM

The new **motion sensor** activates the shredder as soon as **you approach the machine**, making it immediately ready to use with no need to press a button. **When you walk away the sensor, working together with the Energy Smart System, turns the shredder into stand-by mode**, reducing the energy use to almost zero. After 4 hours of inactivity, it automatically disconnects from the power supply. You no longer need to switch the machine off before leaving the office.

NEW

CONTINUOUS DUTY SHREDDING 24 HOUR A DAY & METAL CHAIN DRIVING SYSTEM

KOBRA TS Line shredders feature **sturdy steel gears and a metal chain drive for excellent durability** in comparison with cheaper plastic chains. Carbon-hardened knives easily shred staples and clips with low energy use. **Special motors run continuously 24 hours a day** without overheating, delivering high shredding performance.

TOUCH SCREEN LINE OPTIONS (see specifications for each model)

MOTION SENSOR

The shredder automatically activates when you approach the machine with no need to press a button. When you walk away, it enters stand-by mode and disconnects after 4 hours of inactivity, minimizing energy consumption. *Optional on Kobra 270 TS, Kobra 310 TS, Kobra 310 TS HD, Kobra 410 TS.*

AUTOMATIC OILING SYSTEM

Kobra TS cross-cut and High Security shredders can be equipped with an integrated automatic oiler, which activates a light signal when the oil bottle is low. This system eliminates the need of manual oiling the cutting knives.

METAL DETECTION SYSTEM

The Metal Detection System (Shred Guard) stops the machine when large metal objects are accidentally inserted to prevent damages to cutting knives. An illuminated optical indicator warns the operator to remove these objects in order to protect the knives.

AUTOMATIC FEEDING SYSTEM AND LOCKABLE COVER

Automatically shreds up to 170 sheets while **the operator can simultaneously shred paper, CDs, DVDs, and credit cards**. An anti-jam system handles crumpled or stapled paper. A **lockable cover** with a security key keeps documents safe from unauthorized access.

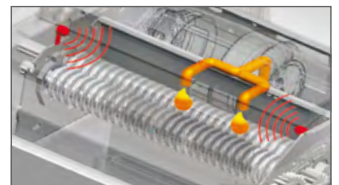

CD/DVD CUTTING UNIT (different Security Levels, up to O-6 High Security Level)

Dedicated slot for CDs, DVDs, and credit cards, with two bins to separate paper and plastic shreds.

O-1 T-2 E-2 Standard or optional on Kobra 260/270/310 TS HS models.

O-3 T-4 E-3 Optional on Kobra 410 TS S5, C4, C2.

O-6 T-6 E-5 High Security, optional on Kobra 410 TS HS models.

KOBRA 245 TS

Professional Touch Screen deskside shredders

				
Sheet capacity up to 29	Throat (mm) 245	Waste bin (liters) 40	Dimensions (cm) 40x36x61	24 Hour Continuous duty motor

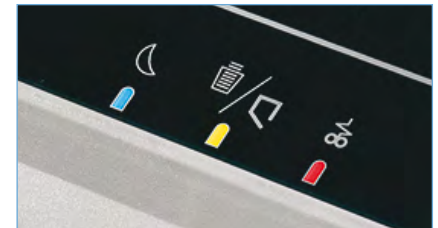

- **Touch Screen:** machine functions activated just by touching the icons on the control panel. Shreds transparent material by keeping the finger on the "Forward" control for 5 seconds.
- **Super Potential Power System:** heavy duty chain drive with steel gears which offer reliability and resistance to wear.
- **24 Hour continuous duty motor** without overheating and duty cycles. Motor thermal protection.
- **Carbon hardened steel cutting knives** unaffected by staples and clips. High precision design of cutting knives allows high shred loads with low power consumption.
- **Energy Smart®:** power saving stand-by mode after just 8 seconds of non-operation.
- **Automatic disconnection** from the main power supply after 4 hours, no need to switch-off the shredder before leaving the office. Maximum power saving.
- **Automatic Start & Stop:** automatic start and stop through electronic eyes.
- **Safety Stop:** automatic stop at the door opening and/or full waste bag.
- **Automatic reverse** in case of jamming.
- **Extraordinary speed for the Kobra 245 TS S4 SF Super Fast:** shreds an A4 sheet in just over 1 second.

CLASSIC LINE

The highest shredding and security performances with the widest choice ever of shredding solutions

SUPER POTENTIAL POWER SYSTEM

Drive system for many years of trouble and service free operation. Special carbon hardened steel gears and metal chain drive systems **ensure operational reliability and resistance to stress and mis-use**, unmatched by the more economical and common transmissions made of plastic gears which are found in most products on the market.

24 HOUR CONTINUOUS DUTY MOTORS

KOBRA shredders are equipped with 24-hour continuous duty motors for long shredding operations without duty cycle. KOBRA shredders can be operated for any length of time without interruptions for overheating. **KOBRA shredders deliver the maximum daily shredding capacity.**

Hybrid POWER MANAGEMENT SYSTEM

EXPERIENCE TOMORROW'S ENVIRONMENTALLY FRIENDLY TECHNOLOGY TODAY

Hybrid technology utilizes stored energy during each and every shredding cycle to improve efficiency, performance and to disconnect the machine from power supply. **Shreds up to 15% of documents using stored energy.**

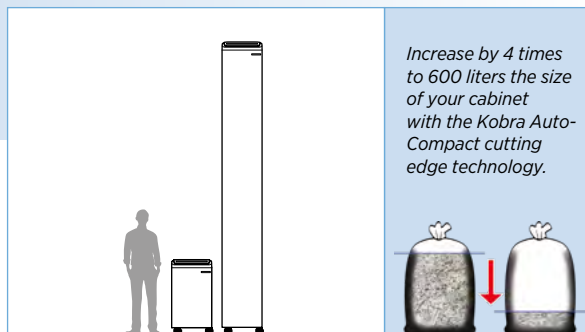

CLASSIC LINE TECHNOLOGY

Standard on
Kobra AF.2

AUTO-FEED/AUTO-COMPACT OIL-FREE SHREDDER

Exclusive high speed **automatic autofeed system**. The automatic feed system allows walk-away shredding of documents (up to 350 sheet paper tray). The **automatic paper compacting system** reduces the volume of shredded paper by 4 times to optimize bag capacity and avoid frequent emptyings.

Increase by 4 times to 600 liters the size of your cabinet with the Kobra Auto-Compact cutting edge technology.

Standard on
all models.

ENERGY SMART® POWER SAVING STAND-BY MODE

Available exclusively on the KOBRA range of shredders, ENERGY SMART® saves energy and protects the environment by reducing emissions responsible for the global warming. The energy consumption of a KOBRA shredder is managed by a **dedicated software activating the power saving stand-by mode** and making sure that no more electrical energy is drained from the power source.

TURBO BOOST SYSTEM

By pressing the Turbo button located on the top cover, the cutting capacity of the machine is temporarily increased by 30%. In case of a paper jam, the Turbo Boost is all you need to clear it. The bright Turbo light indicates reactivation of the Turbo Boost after each use. **KOBRA "Turbo Boost" shredders feature unbelievable shredding power up to 52 sheets of paper in one pass.**

Kobra 240
Turbo models.

Standard on
many models.

DOUBLE WASTE BIN TO SEPARATE PAPER FROM PLASTIC

Some KOBRA Models feature a special removable double waste bin. This specially designed waste bin **allows the separation of shredded paper from plastic shreds** of CDs, DVDs and credit cards. This feature assists the users by ensuring that they can properly recycle their shredded materials.

THROW AND SHRED SYSTEM: 2 CUTTING SYSTEMS, 3 SHREDDING FUNCTIONS

Thanks to the revolutionary new "Throw and Shred" System and its automatic feeding mechanism, you can now choose how to shred your documents or other types of media. You can choose standard shredding, by inserting **the paper into the throat of the shredder (1)**, use the **dedicated DVD, CD-Rom and Credit Card Throat (2)** or the **Throw and Shred System**, destroying your **crumpled paper (3)**.

Designed for special applications:
Military Bodies, Governmental Authorities
and Offices handling *Classified*
and *Top Secret* media.

- **Emergency Manual System** to shred Top Secret documents even in case of no power supply (emergencies, military or terrorism attacks).
- **Super Potential Power System:** heavy duty chain drive with metal gears which offer reliability and resistance to wear.
- **Powerful double motor driving system** with thermal protection.
- **24 hour continuous duty operation** without overheating and duty cycles.
- **Carbon hardened steel cutting knives:** the high security cut of 0,8 x 5 mm meets the latest shredding standards issued by the National Security Agency of the US Government.
- **Energy Smart®** power saving system, the machine goes into power saving stand-by mode after just 8 seconds of no-operation.
- **Automatic Start & Stop** with stand-by function.
- **Safety Stop:** automatic stop with light signal for bag full and/or open door.
- **Automatic Reverse** in case of jamming.

National Protective
Security Authority

Tested and approved by many international Governments and Military Bodies, this shredder is also being used by the US department of States, the CIA and the National Security Agency.

Accu-Flow Automatic Oiling System (Option):
eliminates the need of manual lubrication
of cutting knives.

Manual crank to shred documents
in case of power loss (not included).

INDUSTRIAL LINE

Mighty and Power

KOBRACYCLONE High Technology Shredding System

Blades rotating at a very high speed, combined with the power of a turbine provide the unit with an airflow, allowing the shredding of up to 500 sheets of paper at a time as well as the shredding of many other types of materials into 5 different available particle sizes.

KOBRA C-500 COMPACTOR Designed to work with the Kobra Cyclone when paper is being shredded

This optional accessory **compresses and reduces the volume of the shredded paper by 4 to 5 times** to minimize the space required for the waste. Easy to install and operate, the KOBRA COMPACTOR C-500 will work with any security level screen.

KOBRA 430 TS High Capacity Industrial Shredder with Conveyor Belt

Conveyor belt for easy and fast feeding of material to shred. Convenient 430 mm entry, large shelf holding material to be shredded. Can shred entire archives: up to 130 sheets at a time, cardboards, CD/DVD/Blu-Ray disks, credit cards, floppy-disks and USB pen drives. Designed for large shredding throughput and continuous shredding operation.

KOBRA CYCLONE

Multi-purpose heavy duty industrial shredder

				
Sheet capacity up to 500	Throat (mm) 325x220	Cabinet (liters) 400	Dimensions (cm) 80x212x210	24 Hour Continuous duty motor 6000W

Kobra Cyclone is the ultimate development in shredding technology:

blades rotating at a very high speed combined with the power of a turbine provide the unit with an airflow allowing the shredding of up to 500 sheets of paper at a time as well as the shredding of many other types of materials into 5 different available particle sizes.

- **Shreds up to 500 sheets at a time** (A4 70gr) regardless of the particle size.
- **The size of the particles (Security Level) can be chosen** when ordering the machine and it will always be possible to change the Security Level any time after installation of the unit with a simple operation to adapt to any shredding need. Shredding capacity of 500 sheets at a time remains unchanged with any Security Level installed in the machine.
- **Impressive shredding output up to 420 kg** (940 lbs) of paper per hour (theoretical output).
- **Powerful high efficiency motor:** maximum electrical saving per year.
- **Integrated Vacuum System** specifically designed to provide the operator with clean and dust free shredding environment. The double insulated shredding chamber and special plastic outer housing enclosure for low noise operation.
- **Convenient built-in trolley** for easy transport and replacement of the 400 liter disposal bag.
- **Easy to use:** just drop the material into the turbine chamber, Kobra Cyclone shreds it all quickly and with no jams. It turns automatically off when shredding is completed for maximum energy and time efficiency.
- **Does not require any special maintenance:** no oiling of cutting knives or lubrication. This makes the Kobra Cyclone easy to use for everybody at the office.

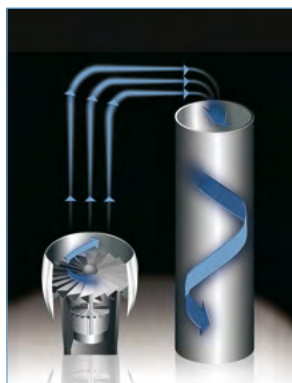

Model	Article code	Sheet capacity A4 70 gr	Credit cards capacity per hour	CD/DVD capacity per hour	Floppy disks capacity per hour	Security level availables (Cyclone screens)	
Kobra CYCLONE	99.100	500	45.000	15.000	7.000	002, 003, 004, 005, 006	

KOBRA CYCLONE How it works: the technology

Kobra Cyclone is equipped with a **turbine generating a high pressure air flow and sets of high speed rotating blades**. By making the air stream spin, particles are subjected to centrifugal forces and deposited from the air flow into the disposal bag.

This unique shredding system, delivers the **highest shredding performance and efficiency along with maximum flexibility in choosing the correct Security and bulk reduction Level** for a given application. Cyclone does not require the special maintenance and complicated oiling procedures that other machines with similar output rates do. **Cyclone is designed for high volume shredding and maintenance free operation.**

Kobra Cyclone (standard version): internal storage compartment. Full bags are easily removed by the built-in-trolley.

Kobra Cyclone (standard version): rear window for easy checking of waste bag level.

5 DIFFERENT SECURITY LEVELS are available with the Kobra Cyclone

It is possible to switch the machine to any of the available Security Levels by a simple modification which takes only a few minutes.

This unique feature allows the Cyclone to produce the output particles which meet the requirements of the most demanding applications in terms of bulk reduction, shredding speed and security.

- **The highest Security Level (Level 006)** sets the machine for high security shredding, maximum bulk reduction of shredded material and minimum shredding output per hour.
- At the other end of the spectrum **the lowest Security Level** sets the machine for minimum bulk reduction of shredded material and maximum shredding output per hour.

Shredding capacity of the Kobra Cyclone will remain at 500 sheets regardless of the Security Level installed. The chart here beside is a helpful guide for choosing the correct set up on the Kobra Cyclone: it shows the available Security Levels and the suggested use of each Level according to shredding output per hour.

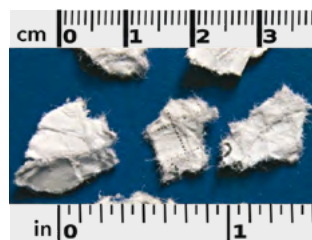

Option	Article Code	Security Level ISO/IEC 2196 (DIN 66399) Description	Shreddable Material	
Screen Security Level 002	51.205	Similar to security level P-2 O-2 T-2 E-2		
Screen Security Level 003	51.204	Similar to security level P-2/P-3 O-2 T-2 E-2		
Screen Security Level 004	51.203	Similar to security level P-4 O-2 T-3 E-2		
Screen Security Level 005	51.202	Similar to security level P-5/P-6 O-3 T-4 E-3 F-1*		
Screen Security Level 006	51.201	Similar to security level P-7 O-5 T-5 E-4 F-3*		

* Microfiche only

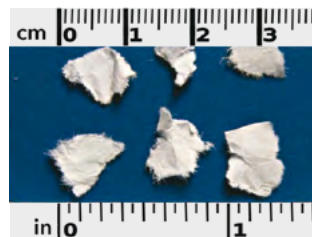

Level 002
Similar to P-2 security level
Low degree of bulk reduction of shredded paper

Shredding output 400-420 Kg (900-940 lbs) per hour (Theoretical Output).

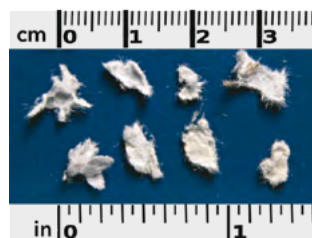

Level 003
Similar to P-2/P-3 security level
This Security Level is suggested for most common commercial shredding jobs

Combines an excellent degree of security, bulk reduction of shredded material and shredding output. Shredding output 300-320 Kg (670-715 lbs) per hour (Theoretical Output).

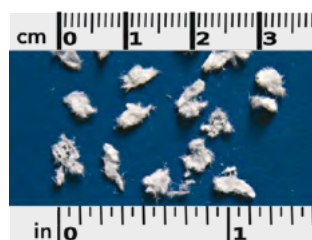

Level 004
Similar to P-4 security level
Security Level suitable for destruction of classified documents

Increased bulk reduction of shredded material. Shredding output 200-230 Kg (445-500 lbs) per hour (Theoretical Output).

Level 005
Similar to P-5/P-6 security level
High Security, suitable for Embassies, Military and Government offices

Very high bulk reduction of shredded material. Shredding output 100-120 Kg (225-265 lbs) per hour (Theoretical Output).

Level 006
Similar to P-7 security level
High Security shredding for very classified documents. Military and Government use.

Maximum bulk reduction of shredded material. Shredding output 70-80 Kg (155-180 lbs) per hour (Theoretical Output).

KOBRA COMPACTOR C-500

Optional on Kobra Cyclone: designed to compact the shredded paper

Kobra Compactor C-500 is designed to work with the Cyclone industrial shredder when paper is being shredded. When shredding other materials, you simply remove the compactor and use standard Cyclone disposal bags. This optional accessory compresses and **reduces the volume of the shredded paper by 4 to 5 times** to minimize the space required for the waste. **Easy to install and operate**, the Kobra Compactor C-500 will work with any Cyclone security level screen. Compacted shredded paper can be collected into any type of container or into plastic waste bags.

Compacting paper increases shredding security of one Level (ISO/IEC 21964 - DIN66399).

Model	Article Code	Compactable Material	Theoretical Output per hour	Volume Reduction	
Kobra COMPACTOR C-500	99.101	Paper	Up to 420 Kg	1:4 / 1:5	

Shredded and compacted paper can be collected into plastic waste bag or any type of container (collection bin is not included).

DIGITAL DATA STORAGE DEVICE SHREDDERS

NEW

KOBRA DIGITAL-PRO Digital Shredder

Kobra Digital-Pro is a high-performance, versatile Digital Media Shredder designed for professional environments.

It efficiently destroys Solid State Drives, Smartphones, SIM Cards, Flash Drives, USB Devices, IC Chips, Credit Cards with chips, PC Boards and other digital storage media — combining high level of security, powerful shredding capabilities with enhanced functionality, convenient and ideal for office environments.

KOBRA HDD Hard Disk Drive Shredder

Deleting data isn't enough to completely erase your sensitive data: the hard drive destruction machines deliver maximum protection of data security. The powerful gear system of the KOBRA HDD shredder **can shred hard disk drives into small pieces** to make impossible to retrieve any data.

KOBRA SSD Solid State Drive Shredder Smartphone and SSD high security shredding

KOBRA SSD is an NSA Approved Solid State Drive shredder capable of destroying solid state drives, smartphones, tablets, memory sticks, USB memory devices, pen drives, circuit boards, credit cards, CDs/DVDs/Blu-Rays. Equipped with an exclusive two stage destruction system, it **can shred electronic data holders into sand-like texture particles.**

KOBRA DIGITAL-PRO

Digital shredder developed for the next-level performance and functional design

			
Throat (mm)	Cabinet (liters)	Dimensions (cm)	24 Hour Continuous duty motor
160x85	32	63x53x104	

Kobra DIGITAL-PRO is a high-performance, versatile digital media shredder designed for professional environments.

It efficiently destroys Solid State Drives (also with metal casing), Smartphones, SIM Cards, Flash Drives, USB Devices, IC Chips, Credit Cards with chips, PC Boards and other digital storage media — combining high level of security, powerful shredding capabilities with enhanced functionality, convenient and ideal for office environments.

NEW

- **High-level security shredding** for complete data elimination.
- **Exclusive shredding technology:** utilizing exclusively designed cutting knives manufactured from high grade carbon steel.
- **Compact and functional design**, perfect for office and professional use with the smallest footprint.
- Attractive durable **metal cabinet** and heavy duty casters.
- **Shreds SSDs (also with metal casing), smartphones, SIM cards, USB drives, flash memory, IC chips, Credit Cards with chips, PC Boards, CD/DVD/BD.**
- **Powerful high efficiency motor** for reduced operating costs.
24-hour continuous duty.
- Extremely **low noise level** below 55 dB.
- **Easy-access** with two convenient entry openings through sliding window and a slot for smaller items.
- **LED indicators: clearly show the current status of the machine.**
LED feed guidance system: allows the operator to monitor and control the load on the cutting knives during continuous shredding operation.
- **Safety Stop:** machine automatically stops when the door is opened or waste bin is full.
- **Automatic anti-jamming system.**

Intuitive control panel with LED indicators.
Sliding window for easy access of shreddable material.

The Kobra DIGITAL-PRO is equipped with the "Titan-Colossus" gearmotor drive, specially designed heavy duty cutting knives with unmatched power to shred large quantities of: SSDs (also with metal casings), smartphones, SIM cards, USB drives, flash memory, IC chips, Credit Cards with chips, PC Boards, CD/DVD/BD.

Shredded material detail.

Model	Article Code	Shred Size	Security Level ISO/IEC 21964 (DIN 66399)	Shreddable Material
Kobra DIGITAL-PRO	99.955	4 x 15 mm	Similar to O-3 T-4 E-3	Solid State Drives, Smartphones, SIM Cards, Flash Drives, USB Devices, IC Chips, Credit Cards with chips, PC Boards

Option	Code	Description
Log Management System	LMS	Log Management System allows to scan and automatically store into a computer the barcode serial number of the device being shredded keeping track of day and hour (barcode reader included).

KOBRA SSD

Solid State Drive high security disintegrator

			
Throat (mm)	Cabinet (liters)	Dimensions (cm)	24 Hour Continuous duty motor
240x25	35	103x82x121	5000W 24h

Kobra SSD is a high security shredder equipped with an exclusive two stage of destruction system capable of destroying:

Solid State Drives, Solid State SIM Cards, Flash Drives, Circuit Boards, Enterprise Solid State Drives, Cell Phones, Tablets, USB Pen Drives, USB memory devices, flash memory, IC chips, CPU chips with internal ROM and/or flash memory, CD/DVD/Blu-ray disks*.

* when mixed with other storage devices

Log Management System is an option.

- **Exclusive shredding technology** with two stages destruction system to pulverize solid state drives.
- **High efficiency motor** can save a considerable electrical energy cost.
- **Kobra SSD has been approved by NSA** and meets the requirements of NSA/CSS Specifications for Solid State Seives destruction.
- **Security Level:** reaches and exceeds NSA/EPL 9-12 reducing shredded material in sand-like texture particles.
- **Special Hepa Air Filtration System:** Kobra SSD is equipped with an integrated internal state-of-the-art HEPA air filtration system to ensure a clean, safe and comfortable operating environment.
- Easy access 240x25 mm **feed port** is designed with a safety brush covering the complete opening for safety and ease of feed operation.
- **Lockable feed hopper cover** prevents unauthorized access to the contents of the hopper once material is fed into the machine.
- **Lighted indicator** displays keep the operator informed of machine's operating status.
- **Safety Stop** for bin access door, air filtration system, access door and feed hopper.
- **Emergency Stop Switch:** stops immediatly all machine functions.

Sand-like texture particles.

Intuitive control panel with LED indicators.

Easy removal and emptying of waste container.

Easy access to cutting units and waste container.

Model	Article Code	Shred Size	Security Level ISO/IEC 21964 (DIN 66399)	Shreddable Material	
Kobra SSD High Security	99.938	Sand-like texture particles.	Similar to O-7 T-7 E-7.	Solid State Drive devices.	

Option	Code	Description

KOBRA HDD

Hard Disk Drive shredder

			
Throat (mm)	Cabinet (liters)	Dimensions (cm)	24 Hour Continuous duty motor
127x30	40	120x84x123	

Kobra Hdd is a Hard Disk Drive shredder data protection compliant capable of destroying:

Hard Drives up to 3.5", LTO, Ultrium Magnetic tapes, CDs, DVDs, Blu-ray Optical Media, Credit and Identity Cards, USB Sticks and Solid State Devices (Phones and PDAs).

Log Management System is an option.

- **Exclusive shredding technology** through high carbon grade steel cutting knives.
- **High efficiency motor** can save a considerable electrical energy cost.
- **24 Hour continuous duty** enables powerful and long operation at a minimum noise level. The KOBRA HDD power unit - durability and robustness - **can shred up to 280 hard drives per hour**.
- The new KOBRA HDD it's available with **two different security levels: H-3 or H-4**, destroying all kind of rotational and digital media devices and making retrieval impossible.
- **Touch Screen Panel with LED-FCS System:** KOBRA HDD carries the latest Touch Screen Technology, the most technologically advanced on the market today. Functions are activated by simply touching the panel, the special LED Feeding Control System allows the operator to monitor and control the load on cutting knives during bulk and continuous shredding.
- Bag full **Automatic Stop** with light indicator.
- **Safety Stop** in case of open door / bin removal.
- Easy to move unit thanks to the casters at the bottom of the machine.
- **Emergency Stop Switch:** stops immediately all machine functions.

Convenient touch-screen panel with LED Feeding Control System.

The Kobra HDD is equipped with the "Titan-Colossus" gearmotor driving, specially designed heavy duty cutting knives with unmatched power to shred large quantities of rotational and digital media devices, including: Hard Disk Drives up to 3.5", Solid State Drives (SSD), LTO, Ultrium magnetic tapes, CDs, DVDs, Blu-ray Optical Media, Credit and Identity Cards, USB Sticks and Solid State Devices (Phones and PDAs).

Kobra HDD can be supplied, on request, with the NSA National Security Agency approved Hard Disk degausser.

Model	Article Code	Shred Size	Security Level ISO/IEC 21964 (DIN 66399)	Shreddable Material	
Kobra HDD	99.945	40 mm x random	H-3 T-1 E-2	Hard Disk Drives	
Kobra HDD H4	99.945H4	30 x 65 mm	H-4 T-2 E-2	Hard Disk Drives	
Kobra DEGAUSSER	97.111	Super fast erasing time: 0,1 second (up to 280 HDD per hour). Completely erases digital data on all magnetic media. Data cannot be recovered.		Erasure capacity: 1 x 3.5" HDD or 8 x 2.5" HDD	

Option	Code	Description	Indicated for	
Log Management System (for Kobra HDD)	LMS	Log Management System allows to scan and automatically store into a computer the barcode serial number of the device being shredded keeping track of day and hour (barcode reader included).	Kobra HDD	
Log Management System (for Kobra DEGAUSSER)	LMS-D	Log Management System with one click activates the Kobra Degausser, reads and stores in a database the barcode of the hard disks that are deleted (barcode reader included).	Kobra DEGAUSSER	

CASINO AND GAMING ITEM SHREDDER

NEW

KOBRA GAMBLER Advanced Shredder developed for high security disposal of casino gaming materials

The Kobra GAMBLER ensures **fast,**
easy and compliant destruction of casino and gaming pieces
for **maximum protection against fraud.**

KOBRA GAMBLER

Advanced shredder developed for high security disposal of casino gaming materials

			
Throat (mm)	Cabinet (liters)	Dimensions (cm)	24 Hour Continuous duty motor
160x21	32	63x53x104	

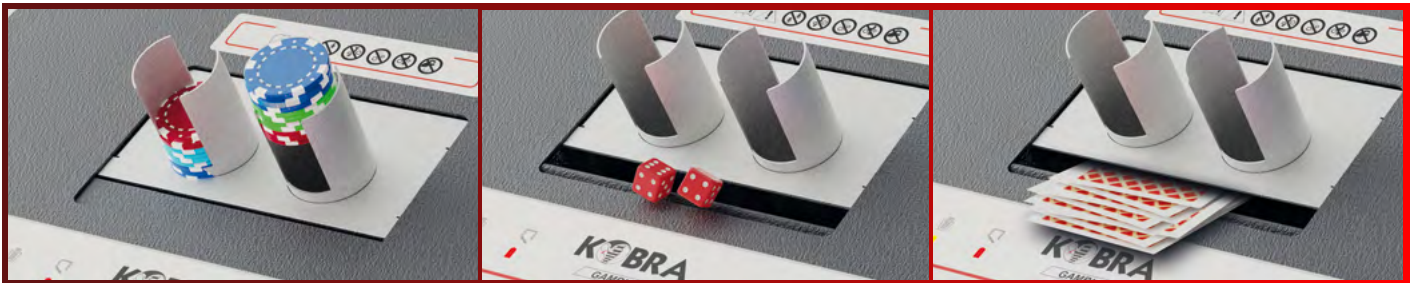

The Kobra GAMBLER is a high performance shredder designed specifically for high security destruction of regulated casino gaming pieces such as dice, poker chips, gaming tokens and playing cards.

NEW

- The Kobra GAMBLER ensures **fast, easy and compliant destruction** of casino and gaming pieces for **maximum protection against fraud**.
- **Exclusive shredding technology:** specifically designed heavy cutting knives for extraordinary market leading performance and durability.
- **Compact design:** ideal for locations where space is at a premium.
- **Energy saving, high performance motor:** saves energy costs with optimal performance.
- **Easy access with multiple openings:** special feeder for the automatic destruction of fiches, flap for inserting dice or playing cards.
- **LED display** for real-time status updates.
- **Automatic Safety Stop** in case of bag full or door open.
- **Automatic anti-jamming system.**

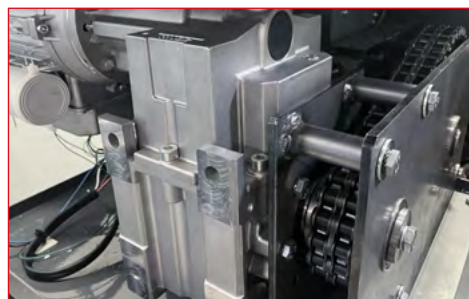

Special feeder with two openings for automatic destruction of up to 2000 fiches per hour.

Flap for inserting dice or playing cards.

Touch-screen operating panel: controls are activated by simply touching the intuitive control panel with LED indicators.

The Kobra GAMBLER is equipped with the "Titan-Colossus" gearmotor drive, specially designed heavy duty cutting knives with unmatched power to shred large quantities of casino gaming pieces.

Shredded material samples:
12,5 x 20 mm dices and poker chips shreds,
12,5 x 20-88 mm playing cards shreds.

Model	Article Code	Shreddable Material and Shred Size	
Kobra GAMBLER	99.956	12,5 x 20 mm Casino chips, Gaming tokens. 12,5 x 20-88 mm Playing cards (depending on the amount shredded).	

ECOLOGICAL & RECYCLING SYSTEMS

When technology and design meet sustainability

ECO-FRIENDLY CARDBOARD RECYCLING MACHINES

KOBRA FLEXPACK & KOBRA FLEXPACK *DESKTOP* transform used cardboard into high quality packaging material

KOBRA FLEXPACK and KOBRA FLEXPACK *Desktop* are the ideal ecological and economical solution when it comes to packaging material. There is no need to throw used cardboards to waste anymore. Pack your products with the cardboards you already have and protect your objects in the best, safest and cheapest way.

The protection of the environment is an issue concerning the well-being and the development of society and it is about of a duty for everyone. Our company is committed to research and development technologies for environmental protection.

WASTE SORTING MODULAR SYSTEM

KOBRA WASTEE waste sorting modular system designed by Arch. Carlo Colombo

The elegant, minimalist and modern design of KOBRA WASTEE allows its placement in any location: ideal to create ecological islands in the office, in contemporary commercial areas and public spaces.

The clear and bright KOBRA WASTEE bins have lids with colored profiles designed to make the recycling experience pleasant and enjoyable. More KOBRA WASTEE bins combined together can be considered as furnishing elements, to be shown and not hidden, they stand out without invading the scene.

KOBRA FLEXPACK DESKTOP

Eco-friendly cardboard recycling machine

			
Entry height (mm)	Throat (mm)	Dimensions (cm)	24 Hour Continuous duty motor
11	427	63x37x33	

KOBRA FLEXPACK Desktop
and **KOBRA FLEXPACK**
transform used cardboard boxes into
packaging material, cushioning and filling
material for safe deliveries of any product.

Do not use plastic packaging anymore!
Recycle your cardboards!

- Kobra FlexPack Desktop simultaneously cuts and perforates cardboard to **create high-quality packaging material**. This will help to save costs, time and to protect the environment.
- An **adjustable working width with scale** enables the user to optimize the measure of the packaging material according to the sizes of the boxes. Moreover, it has a large and convenient carton support table ensuring easy operation.
- **Automatically cuts** carton of larger size than entry throat up to 70 Kg/hour.
- The unit produces **very low noise level on a 24-hour continuous duty operation** and carries a very high-efficiency motor that can save considerable electrical energy cost. It plugs into a standard 230 Volt outlet.
- **Super Potential Power Unit:** chain drive system with steel gears.
- It stands out for its sturdy and robust Kobra power unit and for its Kobra **high carbon grade steel cutting knives**.
- Easy to lift and carry thanks to the **handles** on both sides.
- **Rubber feets** to ensure a stable and non-slip support.

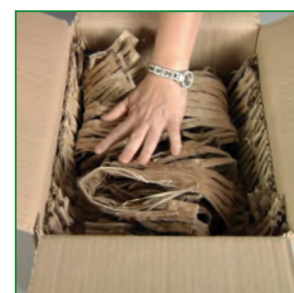

*Easy to use, adjustable working width.
Automatically cuts carton of larger
size than entry throat.*

Chain drive with steel gears.

*Flexible high quality packing
material from corrugated
cardboards.*

*Pack and protect your objects in
the best, safest and cheapest way.*

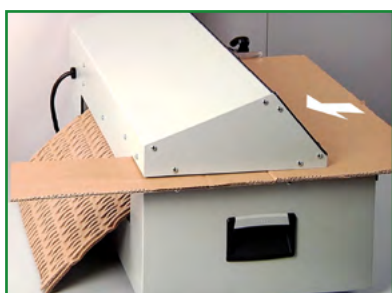

Model	Article code	Throat width	Entry height	Grid dimension	
KOBRA FLEXPACK Desktop	99.949	427 mm	11 mm	6 x 60 mm	

KOBRA FLEXPACK

Eco-friendly cardboard recycling machine

			
Entry height (mm)	Throat (mm)	Dimensions (cm)	24 Hour Continuous duty motor
20	427	70x51x117	

- Kobra FlexPack simultaneously cuts and perforates cardboard to **create high-quality packaging material**. This will help to save costs, time and to protect the environment.
- The **cushioning volume of the output is adjustable** through a specifically designed tension system.
- Kobra FlexPack has an **adjustable working width with scale** enabling the user to optimize the measure of the packaging material according to the sizes of the boxes. Moreover, it has a large and convenient carton support table ensuring easy operation.
- **Automatically cuts** carton of larger size than entry throat up to 250 Kg/hour.
- Kobra FlexPack carries the latest **Touch Screen Technology**: it utilizes a remarkable touch screen keypad where functions are activated by simply touching the panel. FlexPack also shows a **LED load meter** indicating the work load on the machine.
- Kobra FlexPack is equipped with an **hour meter** to help keep records of scheduled cleaning, maintenance and usage time intervals. This standard feature also helps with filter replacement schedule on machines equipped with the **optional DCS-500 system**.
- The unit produces **very low noise level on a 24-hour continuous duty operation** and carries a very high-efficiency motor that can save considerable electrical energy cost. It plugs into a standard 230 volt outlet.
- **Super Potential Power Unit**: chain drive system with steel gears.
- It stands out for its sturdy and robust Kobra power unit and for its Kobra **high carbon grade steel cutting knives**.
- Kobra FlexPack is equipped with an **emergency off switch** for user safety.
- It is a stand-alone/free standing unit, easy to move, equipped with **castors and parking brake**.

Easy to use, adjustable working width.
Automatically cuts carton of larger size
than entry throat.

Chain drive with steel gears.

Pack and protect your objects in
the best, safest and cheapest way.

OPTION: Kobra DCS-500
complete dust collection system
including vacuum motor.

Model	Article code	Throat width	Entry height	Grid dimension	
KOBRA FLEXPACK	99.947	427 mm	20 mm	5 x 100 mm	

Option	Code	Description	
KOBRA DCS-500	99.948	Complete dust collection system including vacuum motor, to provide dust free padding mats for clean packagings	
KOBRA Vacuum kit	51.729	Inner vacuum kit (vacuum motor excluded)	

WASTEE

waste sorting modular system

www.wastee.it/it

KOBRA WASTEE Waste Sorting Modular System *designed by CARLO COLOMBO ARCHITECT*

Carlo Colombo graduated in architecture from the Politecnico di Milano in 1993 and immediately started to dedicate himself to design and marketing of industrial products, graphics, and set-ups, collaborating with the best brands of Italian design such as Flexform, Poliform, Giorgetti, Cappellini, Antoni Lupi, Artemide, Flou, Bentley Home, Bugatti Home, Trussardi Casa, Elie Saab Maison, Olivari, Faber, Sahrai, Penta Light, to name a few. Since 2011 he has been teaching design at the University of Beijing. In 2013 he founded A++ architecture studio with Paolo Colombo in Lugano, which deals with interiors and large-scale projects all over the world, with studios in Lugano, Zurich, New York, Miami, and Dubai. His projects have been exhibited in Paris, at the Weserburg Museum of Modern Art in Bremen (1995), at the Museum of Decorative Arts in Cologne (1996), at the Milan Triennale (2016), and at MARCA, Museum of the Arts of Catanzaro (2017).

The KOBRA WASTEE project originates from the belief that technology and design must meet the challenge of sustainability, so that aesthetically beautiful and elegant products have to be ecological, as well as functional.

Graphics and colors help to separate types of waste.

The elegant, minimalist and modern design of KOBRA WASTEE allows its placement in any location: ideal to create ecological islands in the office, in contemporary commercial areas and public spaces.

*The clear and bright KOBRA WASTEE bins have **lids with colored profiles** designed to make the recycling experience pleasant and enjoyable. More KOBRA WASTEE bins combined together **can be considered as furnishing elements**, to be shown and not hidden, they stand out without invading the scene.*

KOBRA WASTEE – Waste sorting modular system is designed with a strong commitment to sustainability. We use recycled materials to reduce waste and ensure complete recyclability, both for the product and its packaging.

Recycled materials: up to 20% of the product is made from recycled materials, reducing the consumption of resources

100% recyclable: every component is fully recyclable, ensuring minimal environmental impact

Eco-friendly packaging: the packaging is also entirely recyclable, making it an even greener choice.

- Available in **different models**, graphics and colors which help to quickly identify how to separate the different types of waste according to international standards.
- **Space-saving modules**, always well aligned: two round areas located on each side include a magnet for easy joining of more bins to each other.
- **Stable container:** made of particular robust materials, 100% recyclable.
- **Easy to clean:** the lids and outer shell have an attractive glossy ivory-white finish.
- **Quick and easy system** to change the full bag: tilting opening of the lid.
- **Waste bag** made with recycled materials: 100% recyclable.
- **Capacity:** 60 liters.
- **Dimensions** (LxDxH): cm 34 x 34,5 x 70,5.
- **Weight:** 6,7 Kg.

*Two round areas located on each side **include a magnet** for easy joining of more bins to each other.*

Quick and easy replacement of the bag.

Model	Article Code	Lid color / Hole type	Type of waste

O-2 Cross Cut < 800 mm ²	O-4 Cross Cut < 30 mm ²	O-7 Cross Cut < 0,2 mm ²
	O-5 Cross Cut < 10 mm ²	

Data on Magnetic Carriers: Credit Cards, Floppy Disks, ID Cards, Magnetic Tape Cassettes, etc.		
T-1 Mechanically inoperable	T-3 Cross Cut < 320 mm ²	T-6 Cross Cut < 10 mm ²
T-2 Cross Cut < 2000 mm ²	T-4 Cross Cut < 160 mm ²	T-7 Cross Cut < 2,5 mm ²
	T-5 Cross Cut < 30 mm ²	

Data on electronic data carriers: Memory Sticks, Chip cards, Semiconductor Hard Drives, mobile communication media, etc.		
E-1 Mechanically/ Electronically inoperable	E-3 Cross Cut < 160 mm ²	E-6 Cross Cut < 1 mm ²
E-2 Split	E-4 Cross Cut < 30 mm ²	E-7 Cross Cut < 0,5 mm ²
	E-5 Cross Cut < 10 mm ²	

Reduced size data on: micro-films and foils		
F-1 Cross Cut < 160 mm ²	F-3 Cross Cut < 10 mm ²	F-6 Cross Cut < 0,5 mm ²
F-2 Cross Cut < 30 mm ²	F-4 Cross Cut < 2,5 mm ²	F-7 Cross Cut < 0,2 mm ²
	F-5 Cross Cut < 1 mm ²	

Data on Hard Disks (with magnetic data carriers)		
H-1 Mechanically/ Electronically inoperable	H-3 Deformed	H-6 Cross Cut < 10 mm ²
H-2 Damaged	H-4 Cross Cut < 2000 mm ²	H-7 Cross Cut < 5 mm ²
	H-5 Cross Cut < 320 mm ²	

KOBRA products are built with the highest quality materials according to ISO 9001:2015 standards.
