

KOBRA 245 TS

Professional Touch Screen deskside shredders

Sheet capacity
up to 29

Throat (mm)
245

Waste bin (liters)
40

Dimensions (cm)
40x36x61

24 Hour Continuous duty motor

- **Touch Screen:** machine functions activated just by touching the icons on the control panel. Shreds transparent material by keeping the finger on the "Forward" control for 5 seconds.
- **Super Potential Power System:** heavy duty chain drive with steel gears which offer reliability and resistance to wear.
- **24 Hour continuous duty motor** without overheating and duty cycles. Motor thermal protection.
- **Carbon hardened steel cutting knives** unaffected by staples and clips. High precision design of cutting knives allows high shred loads with low power consumption.
- **Energy Smart*:** power saving stand-by mode after just 8 seconds of non-operation.
- **Automatic disconnection** from the main power supply after 4 hours, no need to switch-off the shredder before leaving the office. Maximum power saving.
- **Automatic Start & Stop:** automatic start and stop through electronic eyes.
- **Safety Stop:** automatic stop at the door opening and/or full waste bag.
- **Automatic reverse** in case of jamming.
- **Extraordinary speed for the Kobra 245 TS S4 SF Super Fast:** shreds an A4 sheet in just over 1 second.

- **Energy Smart®** management system with illuminated indicators: the machine goes into power saving stand-by mode after just 8 seconds of no-operation.
- **Automatic Start & Stop** through electronic eyes with stand-by function.
- **Integrated flap** for CDs, DVDs, floppy-disks and credit cards shredding.
- **Safety Stop:** automatic stop with light signal for bag full and/or open door.
- **Automatic Reverse System** in case of jamming.

Energy Smart Management System with illuminated indicators for zero consumption in stand-by-mode.

Heavy duty chain drive with steel gears. Integrated flap.

110-liter high volume cabinet. Easy to remove waste bag.

KOBRA CYCLONE

Multi-purpose heavy duty industrial shredder

				
Sheet capacity up to 500	Throat (mm) 325x220	Cabinet (liters) 400	Dimensions (cm) 80x212x210	24 Hour Continuous duty motor 6000W

Kobra Cyclone is the ultimate development in shredding technology:

blades rotating at a very high speed combined with the power of a turbine provide the unit with an airflow allowing the shredding of up to 500 sheets of paper at a time as well as the shredding of many other types of materials into 5 different available particle sizes.

- **Shreds up to 500 sheets at a time** (A4 70gr) regardless of the particle size.
- **The size of the particles (Security Level) can be chosen** when ordering the machine and it will always be possible to change the Security Level any time after installation of the unit with a simple operation to adapt to any shredding need. Shredding capacity of 500 sheets at a time remains unchanged with any Security Level installed in the machine.
- **Impressive shredding output up to 420 kg** (940 lbs) of paper per hour (theoretical output).
- **Powerful high efficiency motor:** maximum electrical saving per year.
- **Integrated Vacuum System** specifically designed to provide the operator with clean and dust free shredding environment. The double insulated shredding chamber and special plastic outer housing enclosure for low noise operation.
- **Convenient built-in trolley** for easy transport and replacement of the 400 liter disposal bag.
- **Easy to use:** just drop the material into the turbine chamber, Kobra Cyclone shreds it all quickly and with no jams. It turns automatically off when shredding is completed for maximum energy and time efficiency.
- **Does not require any special maintenance:** no oiling of cutting knives or lubrication. This makes the Kobra Cyclone easy to use for everybody at the office.

Model	Article code	Sheet capacity A4 70 gr	Credit cards capacity per hour	CD/DVD capacity per hour	Floppy disks capacity per hour	Security level availables (Cyclone screens)	
Kobra CYCLONE	99.100	500	45.000	15.000	7.000	002, 003, 004, 005, 006	

KOBRA CYCLONE How it works: the technology

Kobra Cyclone is equipped with a **turbine generating a high pressure air flow and sets of high speed rotating blades**. By making the air stream spin, particles are subjected to centrifugal forces and deposited from the air flow into the disposal bag.

This unique shredding system, delivers the **highest shredding performance and efficiency along with maximum flexibility in choosing the correct Security and bulk reduction Level** for a given application. Cyclone does not require the special maintenance and complicated oiling procedures that other machines with similar output rates do. **Cyclone is designed for high volume shredding and maintenance free operation.**

Kobra Cyclone (standard version): internal storage compartment. Full bags are easily removed by the built-in-trolley.

Kobra Cyclone (standard version): rear window for easy checking of waste bag level.

5 DIFFERENT SECURITY LEVELS are available with the Kobra Cyclone

It is possible to switch the machine to any of the available Security Levels by a simple modification which takes only a few minutes.

This unique feature allows the Cyclone to produce the output particles which meet the requirements of the most demanding applications in terms of bulk reduction, shredding speed and security.

- **The highest Security Level (Level 006)** sets the machine for high security shredding, maximum bulk reduction of shredded material and minimum shredding output per hour.
- At the other end of the spectrum **the lowest Security Level** sets the machine for minimum bulk reduction of shredded material and maximum shredding output per hour.

Shredding capacity of the Kobra Cyclone will remain at 500 sheets regardless of the Security Level installed. The chart here beside is a helpful guide for choosing the correct set up on the Kobra Cyclone: it shows the available Security Levels and the suggested use of each Level according to shredding output per hour.

Option	Article Code	Security Level ISO/IEC 2196 (DIN 66399) Description	Shreddable Material	
Screen Security Level 002	51.205	Similar to security level P-2 O-2 T-2 E-2		
Screen Security Level 003	51.204	Similar to security level P-2/P-3 O-2 T-2 E-2		
Screen Security Level 004	51.203	Similar to security level P-4 O-2 T-3 E-2		
Screen Security Level 005	51.202	Similar to security level P-5/P-6 O-3 T-4 E-3 F-1*		
Screen Security Level 006	51.201	Similar to security level P-7 O-5 T-5 E-4 F-3*		

* Microfiche only

Level 002
Similar to P-2 security level
Low degree of bulk reduction of shredded paper

Shredding output 400-420 Kg (900-940 lbs) per hour (Theoretical Output).

Level 003
Similar to P-2/P-3 security level
This Security Level is suggested for most common commercial shredding jobs

Combines an excellent degree of security, bulk reduction of shredded material and shredding output. Shredding output 300-320 Kg (670-715 lbs) per hour (Theoretical Output).

Level 004
Similar to P-4 security level
Security Level suitable for destruction of classified documents

Increased bulk reduction of shredded material. Shredding output 200-230 Kg (445-500 lbs) per hour (Theoretical Output).

Level 005
Similar to P-5/P-6 security level
High Security, suitable for Embassies, Military and Government offices

Very high bulk reduction of shredded material. Shredding output 100-120 Kg (225-265 lbs) per hour (Theoretical Output).

Level 006
Similar to P-7 security level
High Security shredding for very classified documents. Military and Government use.

Maximum bulk reduction of shredded material. Shredding output 70-80 Kg (155-180 lbs) per hour (Theoretical Output).

KOBRA COMPACTOR C-500

Optional on Kobra Cyclone: designed to compact the shredded paper

Kobra Compactor C-500 is designed to work with the Cyclone industrial shredder when paper is being shredded. When shredding other materials, you simply remove the compactor and use standard Cyclone disposal bags. This optional accessory compresses and **reduces the volume of the shredded paper by 4 to 5 times** to minimize the space required for the waste. **Easy to install and operate**, the Kobra Compactor C-500 will work with any Cyclone security level screen. Compacted shredded paper can be collected into any type of container or into plastic waste bags.

Compacting paper increases shredding security of one Level (ISO/IEC 21964 - DIN66399).

Model	Article Code	Compactable Material	Theoretical Output per hour	Volume Reduction	
Kobra COMPACTOR C-500	99.101	Paper	Up to 420 Kg	1:4 / 1:5	

Shredded and compacted paper can be collected into plastic waste bag or any type of container (collection bin is not included).

Kobra SSD is a high security shredder equipped with an exclusive two stage of destruction system capable of destroying:

Solid State Drives, Solid State SIM Cards, Flash Drives, Circuit Boards, Enterprise Solid State Drives, Cell Phones, Tablets, USB Pen Drives, USB memory devices, flash memory, IC chips, CPU chips with internal ROM and/or flash memory, CD/DVD/Blu-ray disks*.

** when mixed with other storage devices*

Log Management System is an option.

- **Exclusive shredding technology** with two stages destruction system to pulverize solid state drives.
- **High efficiency motor** can save a considerable electrical energy cost.
- **Kobra SSD has been approved by NSA** and meets the requirements of NSA/CSS Specifications for Solid State Seives destruction.
- **Security Level:** reaches and exceeds NSA/EPL 9-12 reducing shredded material in sand-like texture particles.
- **Special Hepa Air Filtration System:** Kobra SSD is equipped with an integrated internal state-of-the-art HEPA air filtration system to ensure a clean, safe and comfortable operating environment.
- Easy access 240x25 mm **feed port** is designed with a safety brush covering the complete opening for safety and ease of feed operation.
- **Lockable feed hopper cover** prevents unauthorized access to the contents of the hopper once material is fed into the machine.
- **Lighted indicator** displays keep the operator informed of machine's operating status.
- **Safety Stop** for bin access door, air filtration system, access door and feed hopper.
- **Emergency Stop Switch:** stops immediatly all machine functions.

Sand-like texture particles.

Intuitive control panel with LED indicators.

Easy removal and emptying of waste container.

Easy access to cutting units and waste container.

Model	Article Code	Shred Size	Security Level ISO/IEC 21964 (DIN 66399)	Shreddable Material	
Kobra SSD High Security	99.938	 Sand-like texture particles.	Similar to O-7 T-7 E-7.	Solid State Drive devices.	

Option	Code	Description	
Log Management System	LMS	Log Management System allows to scan and automatically store into a computer the barcode serial number of the device being shredded keeping track of day and hour (barcode reader included).	

KOBRA HDD

Hard Disk Drive shredder

			
Throat (mm)	Cabinet (liters)	Dimensions (cm)	24 Hour Continuous duty motor
127x30	40	120x84x123	

Kobra Hdd is a Hard Disk Drive shredder data protection compliant capable of destroying:

Hard Drives up to 3.5", LTO, Ultrium Magnetic tapes, CDs, DVDs, Blu-ray Optical Media, Credit and Identity Cards, USB Sticks and Solid State Devices (Phones and PDAs).

Log Management System is an option.

- **Exclusive shredding technology** through high carbon grade steel cutting knives.
- **High efficiency motor** can save a considerable electrical energy cost.
- **24 Hour continuous duty** enables powerful and long operation at a minimum noise level. The new KOBRA HDD produces **very low noise levels** on a 24 hour continuous duty operation, destroying all kind of digital media devices into tiny 40 mm x random strip cut and making retrieval impossible.
- KOBRA HDD power unit - durability and robustness - **can shred up to 280 hard drives per hour.**
- **Touch Screen Panel with LED-FCS System:** KOBRA HDD carries the latest Touch Screen Technology, the most technologically advanced on the market today. Functions are activated by simply touching the panel, the special LED Feeding Control System allows the operator to monitor and control the load on cutting knives during bulk and continuous shredding.
- Bag full **Automatic Stop** with light indicator.
- **Safety Stop** in case of open door / bin removal.
- Easy to move unit thanks to the casters at the bottom of the machine.
- **Emergency Stop Switch:** stops immediatly all machine functions.

Convenient touch-screen panel with LED Feeding Control System.

The Kobra HDD is equipped with the "Titan-Colossus" gearmotor driving, specially designed heavy duty cutting knives with unmatched power to shred large quantities of digital media devices, including: Hard Disk Drives up to 3.5", Solid State Drives (SSD), LTO, Ultrium magnetic tapes, CDs, DVDs, Blu-ray Optical Media, Credit and Identity Cards, USB Sticks and Solid State Devices (Phones and PDAs).

Kobra HDD can be supplied, on request, with the NSA National Security Agency approved Hard Disk degausser.

Model	Article Code	Shred Size	Security Level ISO/IEC 21964 (DIN 66399)	Shreddable Material
